## JUST INNOCENT FUN

### GOOD FRIDAY PROCLAIMED BY GOVERNOR.

PROCLAMATION BY THE GOVER-  
NOR OF THE STATE OF TEXAS  
TO ALL TO WHOM THESE PRES-  
ENTS SHALL COME:

Again we are reminded that we  
should give praise to Him who gave  
His all for the redemption of the  
souls of men, as we near the anniver-  
sary of the day upon which our  
Savior Jesus Christ made the su-  
preme sacrifice so that we might  
have eternal life.

The life of Jesus brings to mind  
the great comfort and blessings to  
be gained on this sacred day through  
faith, hope and prayer.

In remembrance of Him and this  
anniversary,

NOW, THEREFORE, I, JAMES  
V. ALLRED, governor of the State  
of Texas, do hereby set aside and  
proclaim the Friday before Easter,  
April 15th, 1938, as

### GOOD FRIDAY

in Texas, and I call upon all Chris-  
tians to reverently observe and com-  
memorate this day with prayers and  
other fitting ceremonies recalling  
the sacrifice made by the Son of  
Man on that historic day in ancient  
times, when His blood was shed for  
the world He loved.

I further urge that business houses  
join with State Departments in a ce-  
sation of all activities on Good Fri-  
day between the hours of 12 and 3  
P. M., and urge everyone to take ad-  
vantage of this pause from their of-  
ficial duties for prayer and obser-  
vance of this day. I urge all Texans  
to lend their whole-hearted support  
to the observance of this day through  
meditation and prayer, in holy re-  
membrance of the crucifixion of Our  
Lord, and to reflect upon the great-  
est message of love mortals have ever  
heard—"For God so loved the world  
that He gave His only begotten Son,  
that whosoever believeth in Him

should not perish, but have everlast-  
ing life."

IN TESTIMONY WHEREOF, I  
have hereunto signed my name offi-  
cially and caused the Seal of State  
to be impressed hereon at Austin,  
this 21st day of March, A. D. 1938.  
(Signed) JAMES V. ALLRED,  
Governor of Texas.

BY THE GOVERNOR:  
(Signed) M. E. SANDLIN,  
Acting Secretary of State.

Joining our honored and respected  
Governor the Hondo branch of the  
Holy Name Society calls upon all  
business men and especially prop-  
rietors of restaurants and cafes to close  
their business at least from 1 to 3  
and give all Christians of our com-  
munity the opportunity to join the  
whole State in the observance of the  
Crucifixion of Our Lord.

REV. P. J. POTGENS,  
For the Holy Name Society.

### FINE ART PRINTS TO BE DIS- PLAYED HERE.

An exhibit of Fine Art Prints will  
be held in the old postoffice building  
April 11th, 12th, 13th and 14th, from  
2 o'clock until 7 P. M. This collec-  
tion—reproductions of the world's  
great master painters—has been  
loaned to Hondo High School for the  
purpose of raising a fund with which  
to purchase pictures for the school.  
A small admission price will, there-  
fore, be charged.

"Tell me what pictures hang upon  
his walls and what books are his com-  
panions and I will tell you what man-  
ner of man he is," are the words of  
a wise man. That the school should  
train for the use and choice of good  
books is accepted and every school  
does this obviously, to a greater or  
less extent. But to be well educated  
means a many-sided development and  
the knowledge of Art is one of the  
prerequisites of modern education.  
Hondo High School is making an ef-  
fort to secure a fine collection of  
prints of the masterpieces of art.

● MRS. J. T. ROBISON, widow of the late Land Commissioner J. T. Robison who served as state land commissioner for a quarter of a century, is shown admiring the memorial bust of her late husband. His statue stands in the present land office where Mrs. Robison is employed by the present commissioner, W. H. (Bill) McDonald.

## ABOUT A SEWER SYSTEM.

Editor Anvil Herald:

A survey such as any individual  
can make, or particularly any group  
of Hondo tax payers could make,  
would prove that incorporation does  
not bring sewerage to much over  
one-half, if that many, of the houses  
inside of the city limits.

Houston has been incorporated  
100 years. Not over one-half of the  
houses inside the city limits of Hous-  
ton have connections with a city  
owned and operated sanitary sewer-  
age line. The other one-half, by ne-  
cessity are compelled to dispose of  
their sewerage by cesspools, chemi-  
cal toilets, septic tanks, and the or-  
dinary "Chic Sale" of the country.

Dallas figures show no better. San  
Antonio is in a worse condition.  
Smaller cities hardly ever serve over  
one-third of the houses with due re-  
gards for certain exceptions.

How many towns around Hondo  
have a city sanitary sewerage sys-  
tem? Of the towns which have a  
city sanitary sewerage system,

(a) What percentage of the houses  
are connected?

(b) What is the cost to each con-  
nection each year?

(c) What percentage of the popu-  
lation is served?

(d) Then since only such a small  
percentage is served (as it will be un-  
der 60%), what can all the other  
people do about not getting service?

(e) Do all the people of a town  
whether connected or not to the sys-  
tem pay the taxes for those who do  
receive sewerage service?

(f) The cheapest bathroom com-  
plete with lavatory, bath tub, and  
commode can be bought from mail  
order houses at around \$49.50.

The actual bathroom or re-ar-  
rangement of the house would cost  
no less than \$25.00. The plumbing  
work, labor and materials to install  
and carry the line out into the street  
would cost no less than \$50.00 (if  
not more). The total cost for a  
bathroom for the poorer families is  
estimated at \$124.50.

The lowest grade of kitchen sink,  
costing around \$3.75, would cost  
around \$35.00 installed and connect-  
ed to sewer lines.

I am talking about our good folks  
who are now using wash tubs for  
bathing, the Chic Sale, and the agate  
dish pan.

Who thinks these folks have the  
money to spend to connect to sani-  
tary sewerage on their present prem-  
ises on an outlay of \$124.50, plus  
\$35.00, a total of \$159.00 per house?  
Does the tenant have it? No! Does  
the landlord have it to spend on his  
property? Ask them!

An analysis of the sewerage dis-  
posal system in Hondo today would  
find that those now able to do so do  
have a modern bathroom and a mod-  
ern kitchen connected to a cesspool  
or to a septic tank.

The same analysis, per se, would  
find that those not now able to do  
so, do not have a modern bathroom  
nor a modern kitchen.

Where is the logic that concludes  
that by saddling a debt of a sanitary  
sewerage system and a sewerage dis-  
posal plant costing around \$100,000,  
or a debt of about \$500 per inhabi-  
tant in Hondo to furnish sewerage  
disposal to those already of that eco-  
nomic status that they do today have  
a good sewerage disposal system?

Yes, if by incorporating and then  
by constructing a sanitary system  
whereby just one-half of the homes  
and all of the business places are  
connected, it would be the thing to  
do. A survey properly made and  
studied without bias or prejudice will  
disclose that not more than one-  
third of the homes and not more  
than two-thirds of the business places  
will make connections. The invest-  
ment in the Street system would  
have to be there the same as if all  
of them were connected, but the ones  
who would pay would be the ones  
who are property owners and tax  
payers.

A debt of \$100,000, issued on a  
5% bond issue over 20 years, would  
require for the first year:

(a) Interest of \$5,000.00.

(b) Principal payment of \$5,000.

Total: \$10,000.00 or about \$5.00

per inhabitant in Hondo per year, or

about \$25.00 per house per year.

Maybe the tenants over town can

stand a raise in rents of \$2.00 per

month for sewerage debt that does

not include operations; I don't think

so. Maybe the home owners can

stand this increase.

One step farther, incorporation

will bring other taxes for the street

maintenance, city health department,

city legal department, corporation

court expenses, a corporation clerk,

a city marshal, the fire department,

a police department, city street

lights, a garbage department, a may-  
or and alderman, maybe a city man-  
ager. Mr. and Mrs. Home Owner in  
Hondo, Mr. and Mrs. Property Owner  
in Hondo (of which I am one), Mr.  
and Mrs. Renter of Hondo, and last,  
but not least, Mr. and Mrs. Busi-  
ness man of Hondo, can you stand  
a city tax of \$1.50 per \$100.00 as-  
sessment on your real and personal  
property for a city government. That  
is if you are now living in a modest  
frame home assessed at, let us say,  
\$1,500.00, will you be willing to pay  
\$22.50 per year in Hondo Incorpor-  
ated, and \$25.00 per year for sewer-  
age connection, and \$24.00 for the  
service of a sewerage, street and  
other bonded debt, and then pay be-  
sides and in addition thereto your  
usual contribution for street lights,  
for a night watchman, for your fire

### MORE ABOUT THE SEWER SYSTEM.

A communication from Mr. J.  
Frank Jungman, printed elsewhere in  
this paper, in which he discusses at  
some length the subject of incorpo-  
ration and a sewer system for Hon-  
do, affords much food for thought  
for all who are concerned in the fu-  
ture welfare of Hondo.

Mr. Jungman very pertinently  
points out the magnitude of the task  
of providing a sewer system that  
would serve ADEQUATELY the  
needs of Hondo—that is, serve the  
entire citizenship of the town.

And while not attempting to get  
down to specifications, he gives one  
a rather forceful idea of the—to  
Hondo—enormous amount of money  
such an undertaking would entail—  
if, indeed, it would not be prohibitive  
with the present taxable valuations.

With equal pertinence and faith-  
fulness to facts he points out that  
Hondo has a splendid supply of pure  
water.

Because these facts are facts they  
become of vital importance to every  
individual in Hondo.

WE MUST KEEP HONDO'S WAT-  
ER SUPPLY PURE!

It is a fool's paradise to sit down  
and presume that nothing can ever  
happen to it.

Let us hope nothing ever does; but  
hoping without taking proper and  
necessary precautions is vain.

And so sure as water seeks its  
level and Hondo continues digging  
holes through the thin shell of clay  
underlying the town and pouring  
sewage into the loose gravel under-  
neath, our water supply will eventu-  
ally become contaminated, and if  
and when that condition is reached  
the town will have to meet it as an  
(Continued on Last Page)

department, etc. Nearly all of the  
smaller incorporated towns around  
Hondo's size charge city taxes,  
charge for sewerage connection by  
the month and also collect for night  
watchmen, for street lights, for vol-  
unteer fire department, etc.

The cost of a sanitary sewerage  
disposal plant in a town like Hondo  
is enormous when compared to the  
taxable assessed values of property.

Hondo, like other Southwest Texas  
towns, is laid out on a generous  
plan, every home has a large home-  
site, the streets are wide, and

HIGWAY DEPARTMENT APPRECIATES H. H. S. AID

In a letter received by Mr. J. G. Barry, Superintendent of Hondo High School, the Texas Highway Department extended appreciation for permitting representatives of the Texas Highway Planning Survey to appear before high school classes.

One hundred and twelve completed Road Use forms had been received from Hondo High School to date.

The information furnished by high school students constituted a valuable addition to the information that had been collected from Medina County for highway planning purposes.

Seniors are planning a magnificent reception for their DADDY DEAR who is to visit them April 8th.

## OW LETS "DADDY DEAR" WILL BE STAGED FRIDAY NIGHT

### COMMENCEMENT EXERCISES WILL BE HELD ON BARRY FIELD

At a meeting, which was held in the senior room Thursday morning, March 31, the seniors decided, after much debating, to hold their commencement exercise on Barry Field on May 24 under the flood lights, providing weather permits.

Because of the large seating capacity in the bleachers and the cool breeze, the commencement exercises will be held on Barry Field instead of the Hondo High School Auditorium, where it was formerly held.

If the weather permits, this will be the first time in the history of Hondo High that the commencement exercises will be held on Barry Field. The program will be written and given by the Senior Class.

### See "Daddy Dear" GREAT MASTERPIECES TO BE ON EXHIBITION

Reproductions of work of artists of many generations will be on display in the old Post Office building, next Monday through Thursday. Admission prices of ten and twenty cents will be charged, the entire amount going to the School Picture Fund. The display of prints will be on exhibition from two until seven o'clock each afternoon.

The reproductions are of the finest type produced, showing the original color as well as the brush strokes of the original canvases. The collection consists of 150 Masterpieces representing the French, Italian, Flemish, English, Dutch, Spanish, German and American Schools of Art, most of them being Masterpieces studied by school children.

Famous portraits, landscapes, marines, and pastoral scenes will be displayed. Among the well-known artists represented will be: Gainsborough, Titian Da Vince, Terborch, Murillo, Van Dyck, Raphael, and many others of the Old Masters, while among the more modern are representative subjects from the brush of Ben Foster, George De Forest Brush, George Innes, Earnest Albert, Frank Duveneck, Gardner Symons, Bruce Crane, William Wyant, Harry Vincent, Gustave Wiegand, and Robert Wesley Amick.

### 600 Crowd Hail On Father's Night

Mothers, fathers, sisters, brothers, cousins, uncles and aunts, making a crowd of approximately 600 people attended Father's night, an annual event sponsored by the Parent-Teachers Association held in the Hondo High School Auditorium, last Tuesday night, March 29th at 7:45 o'clock.

A program was presented, by the different classes in school, after which the parents visited exhibits of the different classes.

Exhibits in high school were: the Seniors, who presented different characters from the class play, "Daddy Dear", to be staged Friday night in the High School Auditorium. The Junior class had as their exhibit

## "DADDY DEAR" WILL BE STAGED FRIDAY NIGHT

### Receipts to Pay on Stage Scenery

### AMPLE SEATING SPACE FOR EVERYONE

### MEMBERS OF SENIOR CLASS ASSIST IN DIRECTING AND MANAGING

### Twelve Characters Take Part

All senior hands join next Friday night to present the senior's feature of the year, their Class Play. With last year's record-breaking crowd in mind, seats will be provided for approximately six hundred people, the ordinary capacity of seating space in the auditorium being only five hundred and fifty.

Because the 1938 senior class is fully confident of having a sufficient crowd to attend their annual "dramatic presentation" the public will not be bothered with the selling of tickets before Friday night at eight o'clock. Money received will be paid on the bill for new scenery purchased by the Senior class, and which is a gift to Hondo High with which to remember them by long after their departure.

The directing staff for this year's presentation, "Daddy Dear", is as follows: Director—Miss Jacqueline Adams; assistant director—Wanda Redmond; business manager—Jack Fitzpatrick; advertising manager—stage manager—Monroe Rucker; stage properties—Glen Pope, Juanita Ward Finger and Garry Thurman; Henry Stiegler; his assistants—Ed Dawson, Jack Sharp; hand properties—Wayne Stevens, J. P. Ney; lights—John Cameron; curtain—James Gray; script readers—Eva Earnest, Elgin Wiemers; costumes and coiffures—Georgie Mae Muenink; make-up—Evelyn Haegelin, J. P. Ney, Monroe Rucker; program committee—Billye Merritt, George Stevens, Evelyn Haegelin.

The characters of "Daddy Dear" in order of their appearance are: Polly Biddle—house-keeper of the Forrest home for some 25 years..... Zonie Taylor  
Nancy Prescott—pretty neighbor, always running in and out of Forrest home..... Wanda Dawson  
Cal Pickens—very inefficient constable of the village, a coward at heart who likes to brag about himself—Anthony Jungman  
Charlie Lawrence—smartest man in the village—or so he thinks—Robert David Windrow  
Bob Mathews—Betty Ann Stewart's guardian, who goes by the name of Donald Clark—Bonnard Rothe  
Betty Ann Stewart—niece of supposedly dead Tad Forrest, who upon the death of her folks, comes to live with Polly  
Malvina Kurtz—young girl of the village, a little eccentric, very hard to look at, and having as her sole ambition of life, the pursuit of a man, any man, before she becomes an old maid—LaVern Ulbrich  
Loretta Harris—prettiest girl of the village, who gives all the women trouble with their men—Anna Laura Renken  
Spud McClosky—one of Betty Ann's former playmates from Sunshine Alley, who pays her a visit—David Williams  
Mickey Maguire—another of Betty's friends from Sunshine Alley, and a perfect shadow of Spud McClosky's, always interfering with the former's love affair with Melvina—Tom Danie  
Mrs. Forrest—sister-in-law of supposedly dead Tad Forrest, temporary guest in the Forrest home—Dorothy Mae Moore  
Annabel Spriggins—village old maid, who helps play a trick on "Daddy Dear". Living on the Forrest estate is Polly Biddle and Betty Ann Stewart, the latter having as her guests, Spud McClosky and Mickey Maguire. Mrs. Forrest and Charlie Lawrence, also guests, are loyally waiting to receive a portion of Tad Forrest's will—After Charlie Lawrence, very effectively reveals several dark secrets which better the welfare of Betty Ann, Donald Clark is introduced as her new guardian and Betty Ann accepts him as her new daddy. Upon seeing Betty's "Daddy Dear", Spud and Mickey inform her that he isn't Donald Clark, but Bob Matthews, a young man who has stolen a car from a millionaire to escape marrying his daughter.

Upon learning this Betty Ann and Nancy gleefully plot with Annabel Spriggins to introduce herself as his fiancée as he can't afford to deny it, and is therefore Betty Ann's prisoner.

At Betty Ann's birthday party Mr. Clark is revealed as Bob Matthews and Loretta berates Betty for pulling

such a hoax as pretending Anna was Bob's fiancée. She is further agitated when Mickey is introduced as her partner for the evening enters, asking Cal Pickens to arrange for the latter's will, only to be informed that Tad is really alive and going by the name of Jim. She also told that in his will she is entitled to cut out, Betty Ann, Charlie and Polly receiving the property.

Finally Betty Ann and Bob meet up after he has been playing up Loretta, and announce their marriage. Cal makes some advance ward winning Polly's admiration. Spud informs everyone that Malvina is his future bride.

## Future Farmers Attend Kingsville Judging Contest

For the third consecutive year, the Hondo Future Farmers entered the annual judging contest at Kingsville last Saturday.

Leaving Hondo at three thirty o'clock Friday the boys arrived in Alice, Texas, at eight o'clock and ate supper there.

After everyone had eaten, the trip was ended after arriving in Kingsville about nine-thirty o'clock. The boys slept "out" Friday night and awoke with a "fresh" mind for the contest Saturday morning.

Since some of the boys had not been to Corpus Christi, Saturday Poetry and Movie Books made by the class as a special project. The Home-making Department exhibited small children's clothes. The Texas History class had as their exhibit a poster, made by the class, of historical places and happenings concerning Texas.

Each of the grammar grades had an exhibit.

The results of the judging contest are as yet unknown.

night was spent by motor boat riding, roller skating, and roaming the streets of the town.

The return route was chosen by a different highway for some of the boys had not seen that part of the country.

Entering the contest from Hondo were as follows: Albert and Arthur Lacy, Russel Peters, Henry Schuehle, Edward Finger, Roland Gaines, Bertram Eckhart, Milton Bohmfalk, John Tondre, Walter Bendele, Billy Ney, Raul Dominguez, Victor Saathoff, Hubert Hermes, Robert Breiten, Walter Weyand, Elmo Pope, Harry Kollman, Elmer Joe Leinweber, Wesley Moehring, Roland Nester, and Bonnard Rothe.

# FAST FIELD EXPECTED FOR EDISON MEET

## CLASS B TEAMS COMPETE SATURDAY

### TEN HONDO CINDER-MEN TO PARTICIPATE

One of the fastest fields in south-Texas class "B" track will be competing next Saturday at the annual Edison Invitation Track Meet in San Antonio. Hondo High's thirty boys will be pacing themselves against the stiffest competition that they have met this year. The Edison meet has been managed to retain the best of the past few years, but Lockhart, Donna, and some twenty other schools have been making it a "race" for the winners.

Hondo will be represented by John Emerson, Edward Finger, R. D. Brown, Muriel Knox, and Tom Brown. In the dashes, Charles Finger, Glen Gaines, and Glen Pope in the 100 and 200 yard races. Fred Jones, Milton Bohmfalk, Fred Jones, and Anthony Jungman in the 400 and 800 yard races. Field events will be handled by various ones of the team. Preliminaries start at 9 A. M. Finals at 2 P. M. Medals will be given to winners in the events. Trophies are usually given to the winning relay teams. The Owls will be in the 880 yard relay.

J. P. Ney and Meyer Morris went to Sabinal Saturday.

Garry Thurman visited in San Antonio over the week-end.

## HONDO BASEBALL SCHEDULE SET

With the State Tournament in Dallas almost a certainty, the Hondo Owls plan to start the hard half of their schedule. This means that if they lose one game to high school competition they probably won't get to compete in the Dallas Tourney.

The schedule for the balance of this year is:

Wednesday, April 6—Boerne High at Hondo

Thursday, April 7—Gonzales High at Hondo

Tuesday, April 12—Hondo at Dilley

Friday, April 22—A. & M. Freshmen at College Station (tentative)

Saturday, April 23—Texas Freshmen at Austin (double-header)

Friday, April 29—Hondo at Austin High (night)

May 12, 13, 14—State Tournament in Dallas

Return game with Gonzales to be set later

Those on the Owl squad who want to go to San Antonio Saturday to see the St. Louis Browns play the Chicago Cubs probably will be taken down. The two teams play Friday, Saturday and Sunday.

## JUST BETWEEN YOU AND ME

Cowards, Cowards! Members of the Science Club were offered fried rattlesnake meat at the Reptile Garden, Sunday, but no one would even taste it. Come on, be a sport!

Panalee Thompson became the snake charmer, and when the rattlesnake meat was offered to her, she said she didn't want any because it didn't look appetizing, although she has eaten some.

Why did Ruth McWilliams move to the back of the study hall, the second period? Was it so she could sit across the aisle from John Tondre? It seems, though, that John didn't pay much attention to her. He probably was busy studying.

Virginia Moehring has finally beaten Vera Taylor's time with Edgar Saathoff. Try to get some of those notes they write to each other; they really are worth reading.

By the way Rica Saathoff—what was in the two-sentence letter that you received last Thursday? He surely doesn't waste much time writing letters. Short but sweet!

Bonnie Jack Cameron walked very diligently, Sunday in the promise of an ice cream cone and then she had to pay for it after all.

For some unknown reason Wanda Dawson refused to make it a four-some Sunday night with Wanda Redmond and her Pearsall friends. She (Wanda Dawson) preferred to go to the show.

The girls are certainly giving Muriel Knox the "grand wish". Just who will he date to the Junior-Senior Prom? Certain people may be surprised.

Substituting for Tom Danie in the role of Mickey Maguire, Eva Earnest found that she wasn't quite as proficient as he; especially when Spud McClosky, David Williams was present.

Two boys were driving around town in a Ford V-8 looking for Mabel Taylor, last Sunday. Hey, Mabel come out of your hiding place and give them a chance to talk to you.

The senior boys, who are acting in "Daddy Dear", don't seem to like the grease paint. Take it and like it, the sooner the better, because it will all be over with Friday night.

Pearsall certainly was an attraction to Wanda Redmond and Anna Laura Renken Sunday afternoon. They both reported that the show was fine even if they didn't know the name of it.

## Uvalde Leader-News. RELOCATION OF HIGHWAY NO. 3 NOW ASSURED.

Relocation of Highway No. 3 from Sabinal to D'Hanis on the south side of the Southern Pacific railroad was assured Wednesday when the Uvalde County commissioners' court agreed to buy all necessary right-of-way through the city of Sabinal.

Last week, the Medina County commissioners' court voted to co-operate with the State Highway Department by purchasing necessary right-of-way, from D'Hanis westward to the Uvalde County line, and the action by the Uvalde County commissioners' court this week definitely assures the relocation of the highway which will eliminate several stretches of winding road, as well as a railroad crossing and an underpass.

All legal assistance toward obtaining the right-of-way in Sabinal will be furnished by the city of Sabinal while Uvalde County, through the commissioners' court, agreed to "indemnify the city of Sabinal against any and all liability for damages to properties occasioned by or growing out of such construction."

W. N. Saathoff, manager of Castroville Chamber of Commerce, is doing splendid work in the restocking of the waters of the Medina river with bass. He believes that the river may be restocked to a fishing paradise by persistent efforts.

John L. Pingnot of Cline states that indications at this time are that the honey crop this spring will be about his way. The guajilla has not bloomed like it usually does, he said. Last year at this time the pastures were white with the guajilla

blooms, but this year the blooms appear only in spots.

B. Morrison of Uvalde is glad to note that Medina County commissioners court has agreed to cooperate with the Highway Department in obtaining right-of-way necessary for the relocation of Highway No. 90 between Sabinal and D'Hanis. "That stretch is all that has been holding up the work on rebuilding of the highway from Uvalde to Castroville, and it will mean a great deal to this entire section to have the work program started," Morrison said. "In my opinion, we will see tourist travel three times as heavy as it is now when the work is completed."

Extract from letter to Uvalde Leader-News written by Chairman Robert L. Bobbit of the State Highway Commission.

It is good to know that the State Highway Commission and the department has the confidence and cooperation of citizens who have the vision and courage to plan and build for the future. The county judge and commissioners' court of Uvalde County as well as the county judge and commissioners' court of Medina County and the chambers of commerce and interested citizens are to be congratulated by all of the citizens of that section in getting matters so arranged on old State Highway No. 3 that we can really move forward in a substantial manner. The getting of this work under way will enable the commissioners to do a lot of other things and work on other projects in that vicinity which would otherwise not be possible.

## The Sabinal Sentinel.

Miss Argie Rely spent Tuesday of this week visiting relatives and many friends in Hondo.

## COTTON RESEARCH LABORATORY WORK STARTED BY STCC.

San Antonio, April 5.—Proposal that the three regional chambers of commerce in Texas cooperate in seeking establishment in Texas of the new federal cotton research laboratory has been made to the East and West Texas Chamber of Commerce by the South Texas Chamber of Commerce. Influence of the South Texas organization in helping secure the laboratory has been pledged to Burris C. Jackson of Hillsboro, chairman of the Texas Statewide Cotton Committee, by Ray Leeman, vice president and general manager of the STCC.

Leeman said his action followed conferences with Max Starcke of Seguin, president of the South Texas Chamber of Commerce, and with representatives of various South Texas communities interested in the proposed laboratory.

Provision for establishment of four regional research laboratories, each to have a \$1,000,000 appropriation annually, is embodied in the new farm bill. The South Texas Chamber of Commerce has proposed that representatives of the three regional organizations in the state meet with Jackson soon to plan a definite program to secure the cotton laboratory for the state of Texas.

## Gonzales, Boerne Meet Owls This Week

### OWLS START HEAVY HALF OF THEIR SCHEDULE

A continuation of last year's feud between the Gonzales Apaches will be at College Square on Thursday this week. As an introduction to the affair, Hondo will engage Boerne Wednesday afternoon.

Last year Gonzales took the first—a high scoring affair—16 to 1. The next game was played here and the Owls won 4 to 2 to even the series. The deciding game was played at Tech Field and was taken by the Owls, eleven to one as Jack Hartung scored a five hit affair. Hondo went on to win the Regional championship. Boerne was pummeled 10 to 1 by the Owls on an earlier occasion this year as Edward Finger let them down on one hit.

From now on the Owls will play pretty fast company and a loss any high school team would probably mean elimination from the Dallas tournament being planned.

## ZONE TENNIS PLAY-OFFS SCHEDULED FOR SATURDAY

Roland Nester will be the only tennis player from Hondo who will represent Medina County in the tennis play-off which will be held Saturday in Uvalde. Representatives from each county in the local half of the district will also be present.

The zone play-off is being held this year for the purpose of eliminating most of the teams that would have been entered in the district meet. By this method there will not be such a big rush on the part of the district officials in trying to get the district meet run off and the participants for the regional meet decided upon.

## HONDO'S BIG GUNS BOMBARD EDGEWOOD

### FIVE HOME RUNS COLLECTED

Shooting for the long ones, the Owls siege guns boomed into action with a total of 16 hits good for 35 bases against a weak Edgewood team at the home park of the latter last Thursday afternoon.

Coupled with the 16 wallops were 16 walks and seven errors to make the score 31 to 4. One homerun each by Muriel Knox, Howard Huesser, Ep Finger, Monroe Rucker, and J. H. Jennings and a triple apiece, as well, by the latter two, helped to bring about the downfall of Edgewood's Red Raiders.

Edgewood's four runs were unearned, three in the first inning when Kingery led off with a hit, moved to third on Elmer Leinweber's two base error in right field and took home on Juan Perez's error behind the plate. Then Zimmerman slammed a hard grounder to Grell that glanced off his arm into the grass in foul territory, and before the ball could be found the batter was safe in home.

### LOCAL THINLY-CLADS OUTPACED

Hondo High School Track Team finished third in the practice track meet held in Pearsall last Thursday afternoon, losing first place by four and one half points. ## WOLCOTT, RICE SOPH, SETS WORLD RECORD

### TOW-HEADED OWL SKIMS HIGH HURDLES IN 13.9

Soaring above the splendid performances of other track greats of the southwest, tow-headed Wolcott, an Institute sophomore, turned in a sterling performance last Saturday at the Texas Relays in Austin. Being setting a new world's record of 13 seconds in the high hurdles, Wolcott won the 100 yard dash in commendable time of 9.8 seconds.

Wolcott ran legs on two Rice Owl relay teams. The Texas Relays, an annual meet for the cinder-men of the southwest, had entries from as far as Minnesota. Several records were broken, mainly in the high hurdles, and the pole vault in which "Zeefus" Bryan set a new mark of 12 feet 10 inches. Graham, also a Rice athlete, hurled the javelin 140 feet, one foot short of the Rice record, and ten feet over the southwest conference mark. Graham, however, has been declared ineligible for competition in conference meets.

## OWLS AND DOBBERS TO TANGLE TUESDAY

The Hondo Owl-Dilley Dobber game, which was formerly scheduled for Saturday, has been moved back to Tuesday of next week, the game to be played in Dilley.

In the past three meetings of the teams the Owls were able to beat the Dobbers, and will be out to make it four wins and no losses against Dilley.

Dilley has a much better team this year than the one that took the field against the Owls last year, having practically all of the boys back who made up last year's team, and will probably give the Owls a "fight for their money".

The scores of the three previous games are: 30 to 1, 6 to 2, and 8 to 0 with the Owls on the big end of the scores.

The volunteer fire boys were called  
out Monday afternoon to put out a  
smouldering fire in the rain gutter  
at the courthouse. Some trash had  
been placed near the spout and  
of the gutter and set on fire. A draft  
of wind drew the flames into the tin  
pipe and ignited some old straw and  
leaves which birds had stored there.  
There was very little flame but the  
great amount of smoke pouring from  
the top of the pipe on the roof  
attracted passers-by and the alarm  
was given. The fire was extinguished  
and no damage was done.

QUIHI. NOTES

Yea, and he shall be blessed. Gen. 27:33.

"And Isaac trembled very exceedingly", when Esau returned with the venison, ready to receive the blessing promised from his father, and both had to realize that Jacob was a leap ahead, and had made away with the major blessing intended for the firstborn, Esau. It was a shocking surprise, but it sobered up the old father; the scales fell from his eyes, and he now saw clearly that, unwittingly and unwillingly, he had done the right thing to Jacob, the younger son, and though Esau "cried with a great and bitter cry", the father remained adamant to wails and pleas and protests, "Yea, and he (Jacob) shall be blessed". We were concerned with the question, how that blessing—times of plenty, people serving, nations bowing down, a curse upon the cursers, a blessing upon those blessing thee—had come true in part, and had been lost since the tragedy of Calvary. The centuries following were more of a curse than a blessing to the Jews. A few individuals, a number of families, several groups and coteries, rose to influential positions, chiefly by financial or commercial strategy; the rank and file suffered restrictions (ghettos), discriminations, suspicions, persecution, massacres (pogroms), expatriation, exile. Many countries denied them citizenship (they were considered guests, and unwelcome at that), trade-rights, legal rights, social equality, academic and professional rights. They were the pariahs, the outcasts, among the nations. Little indication of that blessing came true. And why these suppressive measures? One of their poets insists, "It is not for his defection—that the Jew has met the sword: Christians slay their fellow Christians.—In the name of their own Lord". And again he maintains, "He (the Jew) bowed meekly to his sentence—like the shorn lamb, he was dumb—bearing shame, contempt, revilings—grief and anguish, pain and death. "The verdict of history does not bear him out in either contention. These harsh treatments, in their periodic recurrence in European countries—unjustifiable as they are—seem to have the same causes, not the insane lust for murder; nor is the "dumb shorn lamb" a particular piece of Jewish character. Wonder whether the International Encyclopedia does not touch the sore spot, the running traits of Jewish make-up, past and present, in pointing out (in substance): distaste for hard and violent physical labor; the courage of the prophet and the martyr rather than of the pioneer and soldier; the great ability to retain racial solidarity; capacity for exploitation, both individual and social; shrewdness and astuteness in speculation and money matters generally; an Oriental love of display and a full

appreciation of the power and pleasure of social position? No doubt, the Jewish question has been an outstanding question at all ages, in all countries. We leave to your investigation the Jew in business, finance, in industry and commerce, in press, movies, theater, radio, in politics, labor-unions, war and revolution—and the records are fairly complete—and the incriminations and recriminations, as well as the various attitudes of nations become somewhat plausible. But we are concerned about that blessing upon Jacob. Did it come true? Will it come true? Does the Jew believe in its realization? Let's hear their poet again: "But his resurrection cometh; though it tarry, he can wait. Yea! already we perceive him, rising up on every hand; gliding into power and station, with the world's wealth at command. In the forum, in the senate, lo! he wins immortal fame, halls of learning, marts of commerce, ring with echoes of his name; on each plane of high endeavor he is foremost in the strife, culling everlasting laurels from the battlefields of life". And one of their eulogizing mouthpieces tops it off with the swagger, that the U. S. owe their very existence to the Jews—they made the U. S. just what they are—that is, American. "For what we call Americanism is nothing else, if we may say so, than the Jewish spirit distilled". There you are. Is that the solution of the Jewish problem as St. Paul had it in mind?

SERPENTINE POOL OPENED IN MEDINA.

One hundred fifteen feet of well saturated serpentine in a wildcat drilling in Medina County two miles southwest of Dunlay was holding attention of a number of operators. The test, the No. 1 Riff of the Ewing Oil Company of Harlingen, Texas, is located 200 feet from the north line and 2,500 feet from the east line of survey No. 42 and is about 1,000 feet north of the core test drilled by the Sun Oil Co. in 1937 which showed oil in the serpentine at 890 feet. The No. 1 Riff ran some 109 feet higher, however, on top of the serpentine and at 542-657 feet was still in the serpentine and going ahead a little deeper for setting, with last cores showing better saturation than the first. The well was projected to the Edwards lime. F. E. Hentley did the geophysical

work, who is now doing some final check as the test cores a little deeper to set casing.

Three miles north of Dunlay A. J. Pepper and E. F. Taylor No. 1 Saathoff in northwest quarter of west half survey No. 271 has been shut down after spudding in to do some checking of titles but is to resume drilling Thursday. It is being drilled with cable tools while the Riff test is rotary. Victor Ziegler was geologist on the Saathoff well.—March 31st, Express.

Two New Tests Start Up In Dunlay Area

San Antonio's next oil field is expected to be in Medina County, two miles southwest of Dunlay, where Ewing Oil Company's No. 1 Riff, located in Survey No. 42, is bottomed at 716 feet in serpentine topped at 542 feet. The test ran about 109 feet higher than the Sun core test drilled in 1937 which showed satura-

tion in that formation at around 890 feet. The No. 1 Riff in the last 60 feet of serpentine had nearly solid saturation with very few breaks reported. The test also reported a good oil showing in lime around 500 feet. Casing is to be set in the No. 1 Riff Saturday and plugs will be drilled in about Tuesday of the coming week.

A number of additional tests are being planned for this area. Ewing's No. 1 Haby being drilled by Owens and Dean, is located about 1,500 feet northwest of the discovery well, and has been spudded in. About 2,000 feet northeast of the discovery well Walker and Aderhold No. 1 Zuberbueller is also drilling. The No. 1 Haby is cable tool job and the other test is being drilled with rotary.

Dr. Parks of Mississippi has a block located south of Dunlay and east of the Ewing well with another block held adjoining the Ewing block on the northwest by Capt. H. H. Roberts and associates of Kansas City.

Eight miles southwest of LaCoste J. L. Cromwell and J. W. Cromwell's No. 1 Pauline Tondre is drilling around 700 feet. Southwest of the Cromwell block, Jack Tarver and Hays Gee have been drilling for several days on their No. 1 Roos.—San Antonio Express, April 2.

ATTENDS CHEVROLET REGIONAL MEETING.

Mr. R. W. Gaines, Chevrolet dealer of Hondo, Texas, returned home Thursday filled with enthusiasm over the outlook for the balance of 1938, after a meeting with Region and Zone officials at San Antonio, where he obtained complete plans for a Spring Sale Program to be conducted throughout the United States.

With all business, particularly the automobile business, showing a decided upward trend for the Spring months, the meeting attended by Mr. Gaines verified statements made by local, as well as national, economists that business in the Southwest is the brightest of any portion of the United States.

Mr. Iven X. Sarvis, Zone Manager, assured the dealers attending the San Antonio meeting that public acceptance of the 1938 Chevrolet has been received with greater interest than ever before. This statement was based on the fact that new car sales for January, February and March show decided increase over those of previous months, and that the 1938 Chevrolet continues to offer vital advances in safety, performance, economy, comfort and style.

PILFERER CAUGHT.

For some months various and sundry articles have been missed by different people in the south part of town. Among other things was a suitcase full of clothes and other valuables stolen from an automobile in front of Marvin Schweers' home.

Last Thursday a chair, that had been a family relic in the W. A. Mask home but which had disappeared from their porch some months ago, was seen and recognized on the front porch of one Pedro Rodriguez.

This led to a search by Sheriff Schuehle and deputies of the house and premises and resulted in the recovery of a miscellaneous assortment of stolen articles, among them part of the contents of Mr. Schweers' suit case.

Rodriguez is now in jail with several theft charges filed against him. His wife will probably be made a party to the charges.

CLOSING NOTICE.

The business houses of Hondo will be closed from 1:00 to 3:00 P. M., April 15, to observe Good Friday.

## WASHINGTON SNAPSHOTS.

By James Preston.

The opinions here expressed are  
Mr. Preston's own and not neces-  
sarily those of this paper.—M. E.

Administration leaders on Capitol  
Hill frankly admitted they were flab-  
bergasted by the last-minute deluge  
of telegraphic and mailed protests  
against passage of the Reorganization  
Bill to give the President vast  
powers to reorganize the executive  
branch of the Government. They ad-  
mit that if the protests had started  
a matter of hours sooner the bill  
would never have passed the Senate  
and will have slim chances in the  
House if the country now goes to  
work in earnest against the bill in  
that chamber.

—WS—

A faint ray of sunshine shone  
momentarily through the dark haze  
of National debt in Washington when  
word went out from the Treasury  
that Mr. and Mrs. John Citizen had  
surprised Uncle Sam with more in-  
come tax money than had been an-  
ticipated, that collections were run-  
ning 18 per cent ahead of last year  
and that at last borrowing might be  
ended and the federal deficit halted  
in its rapid climb.

But, lo, it was all a mistake so now  
the Treasury is out to borrow other  
millions to meet expenses.

The mistake is blamed on an old  
Treasury custom—kicking and prod-  
ding mail bags to estimate the Na-  
tion's revenues. Officials explained  
the 18 per cent increase was es-  
timated after collectors had counted  
and prodded the unopened mail bags  
containing tax returns. But after a  
more careful accounting, the Treas-  
ury ruefully announced the increase  
was only 5.1 per cent.

There will be no more kicking of  
mail bags, says the Treasury. No  
mention was made of the poor tax-  
payer!

A "little business" man came to  
the Capitol last week to speak his  
mind on legislation regulating indus-  
try. He appeared as a witness be-  
fore a Senate subcommittee study-  
ing the Borah-O'Mahoney business  
licensing bill, and his argument was  
noted by Capitol correspondents as  
one of the most sincere, "homey"  
and enlightening they had heard. The  
witness, James F. Ryland, Richmond,  
Virginia, manufacturer, told his audi-  
ence:

"Business today is in the dog-  
house. It is regulated and attacked  
and interfered with. It is taxed until  
there is no spirit to expand, and lit-  
tle to continue. . . . Go where you  
like, on the trains, in the hotels, any-  
where. I tell you, he is TIRED. He  
is assuming a 'what's the use' atti-  
tude. . . . Can prosperity and re-em-  
ployment return to a country under  
conditions of that kind? . . . Of  
course, if it is the desire of some to  
take the profit motive out of busi-  
ness, I have nothing to say, except in  
that way lies an end to all expansion  
and enterprise, and we will look on  
America as finished. But if that be  
not the desire of a majority of you  
gentlemen of the Senate, for heav-  
en's sake, give us some respite from  
regulatory legislation and let us put  
our people back to work at the best  
wages we can afford to pay them."

And only one member of the com-  
mittee of Senators attended the hear-  
ing to listen to the witness!

And speaking of business, the gov-  
ernment is doing right well, thank  
you, in competition with private  
business—the WPA now employs  
approximately 200,000 persons in  
factories manufacturing cotton gar-  
ments—making the government the  
largest employer in this field. Taxes  
pay the salaries.

## "NOBODY'S BUSINESS."

By

Julian Capers, Jr.

The opinions here expressed are  
the author's own and not neces-  
sarily those of the Herald.—M. E.

AUSTIN, April 5.—With Karl  
Crowley of Washington, solicitor of  
the Postoffice Department, definitely  
entered as a candidate for Governor,  
and Bill McCraw and Ernest Thomp-  
son at work on platforms which they  
expect to make public within ten  
days, the week-end saw the Govern-  
or's race in Texas pretty well shap-  
ed up. Only the action Jim Ferguson  
planned to take remained a doubtful  
factor. The Ferguson enthusiasts in-  
sistently circulated reports here that  
Mrs. Ferguson will enter the race,  
and will make her announcement "in  
a few days", but this is the same  
story they have been telling in the  
Austin Hotel lobbies for weeks. Some  
newspaper speculation that "Farmer  
Jim" might support Crowley was  
heavily discounted here, because  
Crowley's announcement, if it re-  
flects what he believes in, is diamet-  
rically opposed to most of the things  
that Ferguson stands for. Of late  
years, Ferguson has advocated the  
sales tax, almost to the exclusion of  
every other issue. There was nothing  
in Crowley's announcement to in-  
dicate he embraces the Fergusonian  
school of political thought. As a lone  
wolf, the experts here do not concede  
Crowley a place as a leading candi-  
date, unless he surprises the folks  
and turns out to be a super-cam-  
paigner. His slashing attacks upon  
utilities and natural resource de-  
velopers are not calculated to enlist  
the interests which contributed most  
liberally, as a rule, to campaign  
funds, and even the candidate him-  
self did not appear to be very hope-  
ful of his success. His talk of \$2,000-  
900 campaign funds for Thompson  
and McCraw drew a laugh, and Mc-  
Craw, talking off the record, re-  
marked: "If he'll show me where  
there is a \$2,000,000 campaign fund,  
I'll give him half of it, and get out  
of the race".

## McCraw Off To Florida.

The Attorney General was sched-  
uled to leave the state for several  
weeks about April 11, to appear in  
a hearing on the Green state tax case  
at Miami, Fla. He was planning to  
announce his platform before he  
leaves, and resume active campaign-  
ing soon after his return.

Thompson, preparing also to an-  
nounce a platform, was busy making  
arrangements for the opening of his  
campaign at Waco, April 12, where  
supporters from many Central Tex-  
as counties will gather to hear him  
fire his opening gun. Crowley has  
returned to Washington, to wind up  
his affairs and resign from his Fed-  
eral job, since Federal regulations  
require such action when employees  
enter an elective political race.

## Phares Is Custed

Capt. L. G. Phares, organizer and  
chief of the State Highway Patrol,  
fell victim to the political storm  
which has broken about his head  
several times in recent years this week,  
and was removed from the Highway  
Patrol job by the Public Safety Com-  
mission. He will be assigned some  
inferior post in the department,  
members of the commission said.  
Capt. Homer Garrison, who has been  
Phares' aid, was named to succeed  
him. The Commission reported he  
was removed for "incompatibility  
and a lack of cooperation with other  
units of the department." The ac-  
tion is an aftermath of the bitter  
political rivalry that has existed be-  
tween the Highway Patrol and the  
Rangers, ever since they were com-  
bined under one directing head.  
Phares was named first director of  
the department of public safety, but  
only after a bitter fight made by  
Rangers and their friends, and he  
finally succumbed to this pressure  
and resigned after a short service,  
returning to the Highway patrol job.  
Phares, ill at his home, has asked the  
Commission for a full explanation of  
his removal.

of its most influential figures, fol-  
lowing his death in New York. Col.  
House, a mysterious figure who dis-  
liked publicity, was the "maker" of  
three Texas governors, and rose to  
be the closest friend and adviser of  
Woodrow Wilson, in whose cabinet  
he placed three distinguished Texans.  
President and Mrs. Franklin Roose-

officials, sent floral offerings for the  
final rites of the soft-spoken Texan  
who wielded a powerful influence in

The Court of Criminal Appeals

the court because he was a member  
of the Legislature that raised the

after all. The Fifth Court of Ap-

## DUCKS OFFER BREEDERS A CHANCE FOR RESEARCH.

Most of the market ducks in the  
United States are of the Pekin vari-  
ety, and according to A. R. Lee, of the  
Bureau of Animal Industry, the best  
commercial flocks are remarkably  
uniform in size and quality. This is  
probably due, he says in an article  
in the current Yearbook of the De-  
partment of Agriculture, to a con-  
siderable degree of inbreeding in the  
variety. Nearly all the Pekin ducks  
in the country are descended from  
a relatively small number of import-  
ed birds. Ducks offer a virgin field  
for poultry-breeding research, he  
says—since little has been done in  
the way of scientific duck breed-

ing—and there is an excellent op-  
portunity for the investigation of  
the inheritance of meat character-  
istics in ducks.

#### SIGNS OF SPRING

Today I caught a scent upon the wind  
 And in my yard I heard a robin sing,  
 Beneath my feet I felt the earth  
 Pulse throbbing with the signs of spring.  
 And all of these I know are signs of spring.

But if I had not caught that poignant smell  
 Nor heard the robin's note trill out  
 So clear,  
 By other signs than these I still  
 Could tell  
 That spring is very near.

—Howard A. Farrens, Dallas

#### TO MY DAUGHTER ON HER SIXTEENTH BIRTHDAY

Your spotless soul looks out through  
 honest eyes,  
 Your smile is bright as sunny southern  
 skies.  
 Your voice to me, my dear, is far  
 more sweet  
 Than song of lark when he the dawn  
 would greet.  
 Dear Heart, I love you more than I  
 can say;  
 God's angels guard you ever, I do  
 pray.

—S. M. Gaines, Fort Worth

#### LOVE SONG

I listened to your song of love  
 To feed my hungry heart;  
 And at the fountain of my love,  
 You slaked your thirst for thrill.  
 Your song has ended—you depart  
 While I am hungry still.

—Myrtle Free Gallapsy, Fort Worth

#### NIGHT IN THE DUST BOWL

The night is luminous  
 And full of mystery;  
 The dunes of silver gray  
 Lie still in mockery.

The fields are peaceful now,  
 But when the wind blows high,  
 Old fears will stalk the land  
 Like phantoms passing by.

—Esther Fuqua, Dallas

#### HEALTH PRECAUTIONS.

Proclaimed in Austin recently was  
 April 3 to 10 as State Clean-up and  
 Paint-up Week by Governor James  
 V. Allred.

The Texas State Department of  
 Health and the Fire Insurance De-  
 partment will jointly sponsor this  
 week in Texas.

Dr. Geo. W. Cox, State Health Of-  
 ficer, states that the accumulation of  
 winter's debris represents a distinct  
 menace to the health of adults and  
 particularly little children, and urges  
 everyone to clean up their houses  
 and yards during this week.

"It is not only good housekeeping  
 but ordinary sanitary principles in-  
 dicate the necessity of prompt re-  
 moval of all waste matter in and  
 around the neighborhood of yards  
 and homes, and the definite lessening  
 of the spread of diseases, espe-  
 cially those affecting infants, is vital-  
 ly connected with this procedure,"  
 stated Doctor Cox.

"Texas is annually being host to  
 more and more tourists, and we want  
 Texas to appear at its best for the  
 approval of these visitors. If all  
 property holders will repair and paint  
 their buildings, and replace weeds  
 with flowers and shrubs, we can  
 make Texas the beautiful place Na-  
 ture intended it to be."

Sanitation of the individual home  
 is a splendid protection against com-  
 municable diseases.

Flies help spread typhoid fever,  
 dysentery, diarrhoea, tuberculosis,  
 anthrax and cholera. They breed,  
 live, and feed in filth. To prevent  
 their increase all refuse should be  
 disposed of at once, garbage kept in  
 covered containers, privies made  
 sanitary, and houses screened. Every  
 neighborhood raises its own flies, so  
 that their number is an index to the  
 sanitary conditions.

Mosquitoes are responsible for the  
 spread of malaria, dengue, and yel-  
 low fever. Malaria is spread by the  
 bite of the Anopheles or malaria  
 mosquito. Dengue fever and yellow  
 fever are transmitted by the Aedes  
 Aegypti or Tiger mosquito. The best  
 way to prevent these diseases is to  
 destroy the breeding places of the  
 mosquito. They breed in standing  
 water, therefore, one should drain,  
 ditch, or fill such places, spray oil  
 on water each week, or stock the wa-  
 ter with surface minnows as they will  
 eat the wigglers. Houses should be  
 well screened to protect against  
 these insects. After the spring  
 cleaning is finished, it should be  
 kept in this condition at all times.

Get the habit of making your pur-  
 chases by the advertisements in this  
 paper. Tell your merchant the paper  
 should carry his trade announcements  
 for the convenience of his patrons.  
 In this way all will be better served  
 and all will profit.

#### Better Used Cars, Goal of "School"

DETROIT—Better used cars, at lower prices, are the objective of Chevrolet, thousands of whose mechanics have now received training in such schools as this one, held recently under factory auspices. Key men from each region and zone in the company's nationwide organization were trained in factory-conducted courses for efficient used car reconditioning, including the use of up-to-date time-saving equipment for testing, adjustment and repairs. They then returned to the field and held similar courses for mechanics in the dealer organization. Such programs may help explain the fact that for 35 consecutive months, Chevrolet dealers have sold more than 100,000 used cars a month.

emergency problem.

Wisdom and commonsense would prompt three things to do:

Grapple with the problem now and solve it before it becomes an emergency.

Preserve our credit for that purpose until it is accomplished and not fritter it away in non-essentials, such as playing at CITY government.

And make no mistake about providing an adequate system of water supply and sewage disposal that will answer all needs and purposes when it is undertaken.

We, of course, have little data for basing an estimate of the probable cost of such a system, but we would hate to see it undertaken for less than a quarter of a million dollars.

Neither the water system nor a sewer system can ever be complete and adequate without combining the two under capable management.

That would mean a heavy initial outlay.

But if it prevent a contaminated water supply and a scourge of disease and death among our people COULD IT COST TOO MUCH so long as within our ability to pay?

Another question:

In order to give Hondo this vital necessity, is it necessary to incorporate for city purposes, sacrifice the freedom we now enjoy as a non-incorporated town and assume the burdens of city government while still paying the county and state taxes that now answer our needs for government?

If so, we believe the achievement of the greater end—if achieved thereby—would be worth even that cost.

But cannot the improvement be better achieved by incorporating a water improvement district without taking on the incubus of city government?

## ON OUR WAY!!!

Many persons have been led to believe that the Federal government trimmed expenditures during the past year. Such is decidedly not the case. Expenditures have risen steadily (exclusive of the Veterans' bonus in 1936) for the past nine years. Of late, government revenues leaped to record levels, managed to narrow the deficit margin and thus create a financial illusion that is dangerously misleading; for normally, smaller deficits would indicate actual economy.

Take for instance the regular operating expenditures of the Federal government, which include legislative, judicial and civil establishments. They rose from \$67,000,000 in 1933 to \$814,000,000 in 1937. Likewise consider for a moment Public Works, which includes such items as public highways, reclamation, flood control, public buildings, etc. This rose without halt from \$458,000,000 in 1933 to over \$1,000,000,000 in 1937.

And there is a popular belief that relief spending was recently rigidly curtailed. Yet official financial statements show that from 1933 to 1937, expenditures for unemployment relief, which include direct relief, work relief, and the Civilian Conservation Corps, also rose without halt from \$359,000,000 to

Lemons and fish are friendly associates all the year. In the Lenten season they become an indispensable item among household staples since fish is more frequently on the menu at this time. Lemons provide, in addition to valuable vitamins and minerals, a pleasant acid (citric) which, strange as it may seem to those not familiar with the fate of foods in digestion, helps to keep the blood in proper alkaline balance. This is especially important during winter months when the supply of fresh fruits and vegetables is not so easily available as in spring and summer.

### Baked Fish Spencer Style

This is an easy and satisfactory method of preparing fresh fish.

Dip fish fillets in salted milk, using one teaspoon of salt for each

cup of milk. Dip into fine dry bread crumbs or corn flake crumbs. Arrange on well-oiled baking sheet and sprinkle liberally with oil. Bake in a very hot oven, 500 degrees F. for about ten minutes. Garnish with sliced lemon and parsley. Accompany with lemon quarters.
